Excerpt: . . . furnished monthly by one of these companies after beginning work, in June, 1864, at a cost to the consumer of 80 per ton instead of 120, the price asked previously for salt imported from California. 6 In the conduct of this business an interesting trial was made of the comparative efficiency of camels and mules as pack animals in the Nevada deserts. On level, well-beaten trails the camels traveled as rapidly as mules, and over plains of deep sand as fast as oxen on a good road. Their average load was slightly under 450 pounds, which was nearly double the weight of an ordinary mule pack. 1 The cost of their fodder was small, as they ate greedily all kinds of grass, thistles, tules, and willows, and were particularly fond of the acrid griswood. Yet their substitution for mules was not a pronounced success,...
