Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from *The World s Foundations Geology for Beginners* The very warm and hearty reception accorded to my little book on Astronomy, has been my best encouragement in entering upon the domain of the sister science, Geology. This companion-volume to *Sun, Moon and Stars* is written upon much the same plan, and is intended for the same class of readers - for Beginners of all kinds, whether poor or rich, whether boys, girls, or grown-up people. My object in writing it has been not so much to supply a certain amount of technical knowledge, - for this may be easily obtained from ordinary class-books, - as to open the eyes of others to the hidden wonders and possibilities of enjoyment which lie folded in this little-studied branch of science. Geology is counted by many to be a dull subject But if it has its dry bones, it has also its forms of poetic beauty, its scenes of loveliness, its chords of sublime harmony. Geology is counted by others to be a dangerous subject But if so, the danger lies in ourselves, not in Geology. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such...
