By Maureen D. Raynor

Mcgraw-Hill Publ.Comp. Apr 2010, 2010. Taschenbuch. Book Condition: Neu. 238x170x13 mm. Neuware - 'Psychology for Midwives' is an excellent aid in grasping the key concepts of psychology in a focused way, clearly demonstrating how the key concepts can be used within modern day midwifery practice settings. This is an easy to use, informative guide, with up to date sources of evidence.' Kimberley Skinner, Student Midwife, Anglia Ruskin University, UK 'Communication isn't just about giving information. It is about creating relationships. This book is studded with academic references, but can also help midwives understand and interact with their clients in a satisfying way.' Sheila Kitzinger, Honorary Professor at the University of West London, UK (formally Thames Valley University) 'A well set out book comprising a comprehensive list of relevant contents . Of particular note is the use of case vignettes, stories, reflective activities and summaries of key points . The content of the book reflect a range of contemporary theoretical approaches and subject areas.' Maria Barrell, University of Northumbria, UK 'This is an excellent book which focuses on the underlying psychological factors that influence and guide women through pregnancy, childbirth and puerperium. There are clear descriptions of relevant theories and current...
